Euregional Health Atlas; a brief explanation

- Why
- How
- Where
- What

Crossing borders in health

Why

- Cross border regions; economy and health is challenging

- Mutual Interaction more than quantitative insights of movements

- Misunderstanding based on wrong perceptions

- Different laws and regulations have cross border impact

- Better understanding through data

Crossing borders in health

How

- From Macro to Micro

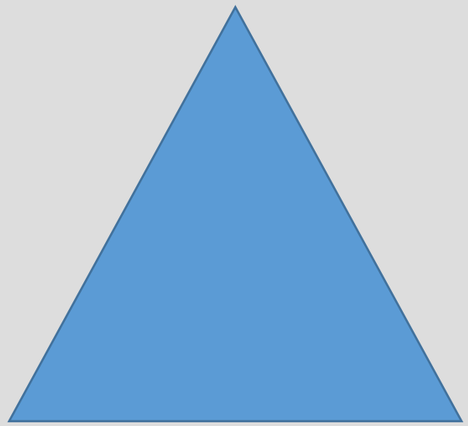
- Close collaboration;
  (Public)Health Organisations, Data Collecting partners

- Long term collaboration

How

- Analysis of the detail
- Intensively contact with partners in the EMR
- Triple approach:

Legalisation: Politicians



Prerequisites:
organisations support

Doing the job:
Data Experts

Where

Where

- Still the beginning

- A long way of collaboration needed

- Not what it’s worth now, but what we make it worth
